Timeline

Timeline Functions

Most Floor Plan functions can also be preformed from the Timeline.

1. Seat a walk-in: Tap an empty table on the green current time line.
2. Make a reservation: Tap an empty table at the correct time in the future.
3. Seat or pre-assign an upcoming reservation: Tap the reservation and then “seat or assign table.”
4. Move a reservation to a different table: Drag and drop the reservation to the desired table. The color will turn black indicating it has been pre-assigned to that table.
5. Finish a reservation: Tap the seated reservation and then “Finish.”
6. Change the status of a reservation: Tap a seated or upcoming reservation and choose the correct status.
